

of series "Using SLS for Whole-School Transformation of Teaching & Learning"

# Set Up School & Department Spaces

Why should schools use SLS in a structured way? Standardising the tools, expectations and learning data allows teachers and students to benefit from economies of scale at the department, school and system level.

- By using a single platform, the need for onboarding various platforms is reduced, while still allowing the full affordances of varied and emerging tools which can be integrated or embedded within the platform.
- It serves as a one-stop portal for all teaching and learning resources and artefacts.
- · It allows for central consolidation of data across all teaching and learning experiences.

# **Teacher Groups**

Set up persistent Teacher-Only and PD Class Groups to share learning resources and conduct school-wide PD

#### **DEPARTMENT**

### **HODs** can set up subject groups with all their department teachers to:

- · set up department 'sharing folder'
- · allow teachers to build and share resources
- facilitate department planning and communications

## **Benefits** (

- · Teachers can co-edit department lessons in Group Resources
- Teachers can use Planner to organise meetings.
- · Teachers can use Group Announcement to notify
- · Teachers can use Group Poll and Forum for quick dipsticking and to discuss professional and administrative matters.

#### Role\* Suggested User for Department HODs Owner · LHs Co-teacher · Relief/Adjunct teachers Observer Temporary observers from other schools or

#### **SCHOOL**

#### SSDs can set up school PD groups to:

- · conduct school-wide PD
- · share and assign PD resources
- encourage professional conversations

#### **Benefits**

- Teachers can experience PD through SLS assignments, SSDs and Teacher Leaders can monitor completion and give feedback.
- Teachers can use Group Forum for professional conversations across departments, along topics guided by SSDs and Teacher Leaders.
- SSDs can build up PD materials over time under Group Resources, which can be used to onboard new staff in future years.

Role*	Suggested User for School
Owner	<ul> <li>School Leaders</li> <li>SSD</li> <li>HODs</li> <li>SHs</li> <li>LHs</li> <li>Teacher Leaders</li> </ul>
tudent (Using eacher- itudent ccount)	All teachers     Relief/Adjunct teachers     Temporary observers from other schools or departments

<sup>\*</sup>Details on what each role is able to do can be found here

# Student Groups

### Create groups that include students to enable the sharing of more permanent self-study resources

#### **Department groups**

- To share subject-specific resources across levels
- · E.g. Resources for the teaching and learning of a specific subject, past year papers

#### Other groups

- E.g. CCA groups, remediation/enrichment classes, Student Leadership Board
- · E.g. School library group to share library resources and programmes

#### Level-wide groups

- · To share resources for level-wide activities
- · E.g. School camps, learning festivals

#### **Inter-school groups**

- E.g. Schools who have external CCA partnerships with other schools for students from different schools in the same CCA.
- · E.g. Professional interest groups, Cluster/Zonal groups
- $\bullet\,$  Do note that the Class Groups do not automatically get updated every year with incoming students, so schools and departments will need to manually add them.
- With R20, there will be clearer ways to label and filter the different groups
